

VIDHYA MANI

Product Designer · Systems Thinker · UX Researcher

+91 86107 17784 · vidhya.m.designs@gmail.com · [linkedin.com/in/vidhya-mani](https://www.linkedin.com/in/vidhya-mani) · Chennai, Tamil Nadu

Product Designer with 6+ years of experience in complex systems, specializing in simplifying workflows into intuitive user experiences. I bring a systems-thinking approach to design — combining technical depth, user research, and interaction design to solve real-world usability challenges.

Experienced in translating ambiguous problems into structured solutions, with a strong focus on usability, accessibility, and behavioral design.

DESIGN EXPERIENCE

UI/UX Designer Fellow | NextLeap Mentorship Program

Feb 2026 – May 2026

Focused on end-to-end product design including research, interaction design, and high-fidelity prototyping.

- Redesigned Zoom for higher education by addressing student disengagement and low participation through features like Live Quiz, Anonymous Q&A, and AI-generated notes.
- Conducted primary research with students and educators, synthesizing insights into personas, journey maps, and usability improvements.
- Created complete user flows from lo-fi to hi-fi using Figma, including interaction states and component systems.
- Validated designs through usability testing with 7 participants using Maze.

Case Study: [Zoom Redesign — Increase Adoption in Education Sector](#)

Self-Initiated Case Study | AJIO iOS Redesign 2026

Identified a key UX issue in deep product browsing where users get trapped in repetitive back navigation loops.

- Conducted competitive analysis across Amazon, Nykaa Fashion, and Tata CLiQ to identify navigation patterns and platform inconsistencies.
- Developed the Smart Escape Menu — a contextual navigation system with intent-based actions (Home, Categories, Back to Top) enabling one-tap recovery from deep browsing.
- Built end-to-end design from paper sketches to hi-fi screens aligned with iOS patterns and AJIO's visual system.

PROFESSIONAL EXPERIENCE

Technology Analyst | Infosys Ltd

June 2019 – Present

- Resolved complex system issues as a Level 2 Administrator, improving resolution efficiency and reducing escalations.
- Planned and implemented workflow solutions, increasing resolution rates by 15%.
- Built ServiceNow dashboards and reporting systems, improving incident tracking and operational visibility.
- Reduced service request fulfilment time by 20% through automation and optimized service catalog design.

- Delivered knowledge transfer sessions for 10+ team members, improving onboarding efficiency.
- Implemented role-based access controls (ACLs), reducing access-related support tickets by 15%.

SKILLS

Design: Figma, Miro, FigJam, Photoshop, Clip Studio

UX Methods: User Research, Competitive Analysis, Wireframing, Usability Testing, Persona Development, HMW Framing, Stakeholder Management, Requirement Gathering

Design Systems: iOS HIG, Apple SF Symbols, Component Libraries

Tools: Maze (Usability Testing), Notion, Medium

EDUCATION & CERTIFICATIONS

UI/UX Design Certificate | [Google — Coursera](#)

May – Oct 2022

- Foundations of UX Design · Empathize, Define & Ideate · Wireframes & Lo-fi Prototypes
- UX Research & Testing · Hi-Fidelity Designs & Prototypes in Figma

Bachelor of Computer Applications | [SASTRA University](#)

2016 – 2019

CGPA 7.4 · Kumbakonam, Tamil Nadu

ACHIEVEMENTS

- Published two UX case studies on Medium — Zoom redesign for Indian higher education and AJIO iOS navigation redesign.
- Received Infosys Insta Award for creative documentation and knowledge sharing across the team.
- Received multiple client appreciations for quick resolution and accurate report generation.
